

Victories has worked in the field of men's personal growth for over 33 years. Our weekends and groups provide a safe, confidential space for men to learn to rely on other men, as they share their struggles and successes. Victories programs accelerate mens' progress in therapy by helping them build an increased capacity to engage openly and effectively in the therapeutic process.

Friday, April 5, 2019

6:30pm Doors Open

7:00pm Presentation by James Hollis, followed by a Q & A and book signing

Living an Examined Life:

An Evening with James Hollis

"The unexamined life is not worth living," said Socrates. A consequence of the necessary adaptations we make to the demands of family, the world around us, and the imbedded messages we carry, causes each of us to get separated from our own truth, our personal authority. Initially accountable to the world around us, we adapt, repress, leave behind some of our best parts. The second half of life is an on-going summons to an accountability to the soul. This presentation will identify some of the issues, and the tasks they raise for us, in living an examined life.

The evening will end with a book signing.

Light refreshments will be provided.

This event is open for all.

Saturday, April 6, 2019

8:30am Registration

9:00am-12:00pm Workshop

The Wounded Healer:

A CEU Workshop for Professionals

As Jung noted, only the wounded healer can heal. Only the person who has suffered, come to an enlarged consciousness through that suffering, and then relates to others with a more assimilated woundedness can have a healing effect upon others. The highest percentage of persons in the care-giving professions come from wounded backgrounds and seek their own healing through their choice of profession. This program will especially identify the hidden pathology, the hidden costs to such persons, as well as explore the archetype of the wounded healer in all of us. Additionally, we will examine six existential adaptive patterns we all learn, and how each one may set us up for ethical violations.

This event is open for mental health professionals only. Individuals with LCSW, LCPC, LMFT, and licensed Psychologists will receive 3 CEUs for attending this workshop.

James Hollis, Ph.D.

James was born in Springfield, Illinois. He taught Humanities for twenty-six years in various colleges and universities before retraining as a Jungian analyst at the Jung Institute of Zurich, Switzerland. He is currently in private practice and is the Executive Director of the Jung Society of Washington, DC. He lives in Washington with his wife Jill, an artist and retired therapist; together they have three living children and eight grand-children. He has written fifteen books and over fifty articles.
